### REMARKS RE SEQUENCE LISTING

Commissioner for Patents:

In the Notification of Defective Response mailed on April 18, 2007, in the above-identified U.S. National Phase patent application, Applicants are required to provide a sequence listing in compliance with 37 CFR 1.821(c). The undersigned has examined the application and finds no sequences to be disclosed.

This application is a U.S. National Phase of PCT/EP2004/007801. Attached hereto is the PCT request form submitted with that application. On page 6 of this document (the last page) in the upper left portion is a list of the number of pages submitted. Although this document is in German, it is clear that no pages are provided for "Sequenzprotokoll", *i.e.*, a sequence listing.

Therefore, Applicants respectfully submit that no sequence listing is required, and request that this requirement be vacated.

Respectfully submitted,
